

## Oraz - Clone of Oraz business model

<p><b>PROBLEM</b></p> <p>2. Creating a nice interface to help display the camera models and images that are returned.</p> <p>1. Sending the information of the camera to Flickr in order for it to send back pictures of that particular camera.</p> <p><b>EXISTING ALTERNATIVES</b></p> <p>Jquery mobile</p> <p>Flickr api</p>	<p><b>SOLUTION</b></p> <p>2. we can use jquery mobile and use the widgets found in its library to help with the buttons, drop down boxes, and template designs.</p> <p>1. We can use javascript and backbone.js to create views, models, collections with backbone.js, then use that to connect to Flickr by sending the chosen information to their server to retrieve the results.</p> <p><b>KEY METRICS</b></p> <p>The total number of stars/positive ratings, and comments that people have rated/wrote about our product.</p> <p>The number of downloads from the app store, and from the play store.</p>	<p><b>UNIQUE VALUE PROPOSITION</b></p> <p>Want to find out which camera you should buy which takes the best quality images? Use oraz!!</p> <p><b>HIGH-LEVEL CONCEPT</b></p> <p>Oraz = amazon price check for cameras</p>	<p><b>UNFAIR ADVANTAGE</b></p> <p>It is made by Orazio Lentini and Krunal Intwala.</p> <p><b>CHANNELS</b></p> <p>Word of mouth</p> <p>Facebook, Twitter</p> <p>Through the android play store.</p> <p>Through the apple app store.</p>	<p><b>CUSTOMER SEGMENTS</b></p> <p>Anyone who wants to buy a camera</p> <p>Photographers</p> <p>Children</p> <p>Women</p> <p>Men</p> <p>Adults</p> <p><b>EARLY ADOPTERS</b></p> <p>Someone who wants an easier way to choose a camera.</p> <p>Like to take pictures.</p> <p>Wants to buy a camera.</p>
<p><b>COST STRUCTURE</b></p> <p>Hosting the server of the app = \$0 dollars (initially)</p> <p>Creating the app cost = \$0</p>		<p><b>REVENUE STREAMS</b></p> <p>A paid version that lets you search a camera instead of the initial camera models and find images from that particular camera.</p> <p>Possibly have a paid version of the app that lets you choose two cameras and compare images side by side.</p> <p>Through the use of advertisement.</p>
